PROFILE

I am a hardworking, friendly and versatile camera operator who excels working as a Steadicam Operator, DOP & Camera Operator. For over 20 years I've worked across the globe on an extensive range of entertainment television shows and productions, in the studio, on location, in single & multi-camera environments.

These include documentaries, factual entertainment, commercials, promos, big sporting events, live Outside Broadcast for major broadcasters, branded content for huge brands as well as online & corporate productions. More recently after 10 years of operating Steadicam, I invested in my own rig and am providing productions with smooth dynamic shots.

Based in Surrey UK, within easy reach of Central London and surrounding airports - I can supply your shoot with a full high spec shooting kit, crew van, as well as full Steadicam facilities. My selected credits list is below:
